iX Cameras wins place at UK's largest innovation show

Rochford, Essex United Kingdom- iX Cameras has won a place at Innovate 2016, the UK's largest exhibition of the most cutting edge innovations from business across the UK.

iX Cameras is one of 100 companies nationwide selected to showcase its i-SPEED Series of high-speed cameras to over 2,500 attendees at Innovate 2016 on November 2- 3 in Manchester, UK. "We are honored to have been chosen to exhibit at Innovate 2016 and look forward to showcasing our high-speed cameras to the attendees of the exhibition," said Jonathan Hatton Director of Business Development, iX Cameras.

Innovate UK Chief Executive Ruth McKernan said: "Innovate 2016 will be an excellent opportunity for iX Cameras to showcase their state-of-the-art high-speed camera line to a national and international audience. I congratulate iX Cameras on their success in winning a place and look forward to their involvement in our annual flagship show of innovation excellence across the UK."

Innovate 2016 is the UK's largest multi-sector innovation event and is organised by Innovate UK and the Department for International Trade. It is set up to create opportunities for export and investment for the UK's most innovative companies. For more information please visit the [Innovate 2016 website](http://www.innovateuk.com)
