iX Cameras Presenting at 69th Aeroballistic Range Association Meeting

iX Cameras Application Engineering Manager Nick Paris was one of the key speakers at the 69th ARA (Aeroballistic Range Association) Meeting in Bath, England. Nick's presentation was focused on the high-speed cameras used in ballistics research and analysis.

In addition to the presentation, Nick conducted a demonstration with the i-SPEED 7 high-speed camera at the Wiltshire Ballistics Range, recording a range of calibers impacting bulletproof glass at frame rates in excess of 50k fps.

The annual ARA meetings are attended by an international group of scientists and engineers from government, academia, and industry involved in various aspects of maintaining, upgrading, and utilizing launcher technology for a variety of research applications, mostly involving defense or aerospace applications. The meeting is primarily composed of technical talks presented by the members of the group.

About ARA

The Aeroballistics Range Association is an international organization that brings together scientists and engineers interested in defense or aerospace applications. The organization is devoted to sharing research and development progress in the broad field of experimental ballistics. For more information visit www.aeroballistics.org

About iX Cameras

iX Cameras is a world-leading technology and product company specializing in the field of high-speed (slow motion) imaging. Based on proprietary innovative technologies, we design, build and sell cutting-edge ultra-fast cameras and software for a wide range of advanced scientific research applications. The company is a wholly-owned spinoff of the heralded Olympus industrial division, combining the acumen of the engineering visionaries from Olympus with a new team of industry veterans, continues to innovate state-of-the-art i-SPEED cameras under the iX Cameras name. Sales, service and support of all i-SPEED camera models can be obtained from regional offices located in the United States, United Kingdom, China and India.
