

For Immediate Release

May 28, 2019

iX Cameras CEO Lecturing at Edgerton Center at MIT

Peter Carellas, CEO & President of iX Cameras, will return to MIT to teach at the [MIT Professional Education Short Program on High-Speed Imaging for Motion Analysis](#). He will hold two lectures and two workshops on Lenses and Optics in High-Speed Imaging. The lectures will cover topics ranging from overall general theory of lenses, best practices on using lenses in high-speed imaging, sensor formats, and how to pick the best lens for a specific application. The hands-on workshops address different methods of using a lens, how to utilize the lenses you have vs. purchasing additional lenses, micro vs. macro lenses, and which lenses and other key optical equipment you need to maximize your efficiency in your lab.

iX Cameras will also hold a hands-on session and demonstration on high-speed video. Matt Rece, iX Cameras Application Engineer will conduct demonstrations using a variety of high-speed cameras from the iX Cameras product lineup.

The MIT high-speed imaging and motion analysis program is designed for scientists, engineers, and imaging specialists who need to gather data on rapidly moving subjects and events for study, motion analysis, and trouble-shooting. The program combines lectures focusing on imaging technologies, motion analysis, lenses and lighting with labs where the attendees have the opportunity to try out the latest in high-speed-imaging equipment.

The short program will take place at the MIT Edgerton Center, June 17-20. For more information, visit MIT Professional Education at <https://professional.mit.edu/programs/short-programs/high-speed-imaging>

About iX Cameras

iX Cameras is a world-leading technology and product company specializing in the field of high-speed (slow motion) imaging. Based on proprietary innovative technologies, we design, build and sell cutting-edge ultra-fast cameras and software for a wide range of advanced scientific research applications. The company is a wholly-owned spinoff of the heralded Olympus industrial division, combining the acumen of the engineering visionaries from Olympus with a new team of industry veterans, continues to innovate state-of-the-art i-SPEED cameras under the iX Cameras name. Sales, service and support of all i-SPEED camera models can be obtained from regional offices located in the United States, United Kingdom, China and India.
