**iX Cameras participating at The 32nd International Congress on High-Speed Imaging and Photonics**

**ICHSIP-32**

iX Cameras is exhibiting and participating at the 32nd International Congress on High-Speed Imaging and Photonics at the University of Twente in the Netherlands, October 8-12. The event's focus is the latest innovation in high-speed imaging technology; new scientific discoveries and technical innovations are presented during the conference. The ICHSIP Congress brings leading scientists from a range of application fields from ultra-fast x-ray imaging, super-resolution microscopy, ultrafast AFM to 3D live cell imaging.

The iX Cameras team is participating in the conference along with exhibiting our line of high-speed cameras. For more information visit <https://ichsip-32.org/>
