### **iX CAMERAS INTRODUCES NEW i-SPEED 230 HIGH-SPEED CAMERA**

December 3, 2019 – iX Cameras of Woburn, MA and Rochford, UK, a leading developer and manufacturer of high-speed imaging technology, announces the addition of a new high-speed video camera: the i-SPEED 230 model. This compact, lightweight, high-performance camera offers an outstanding combination of resolution and frame speed in a small form factor and provides excellent performance for a variety of motion analysis testing requirements. The i-SPEED 230 is ideal for automotive crash testing, material strain testing, manufacturing, and scientific research.

Peter Carellas, President and CEO of iX Cameras said, “We are very pleased to add the i-SPEED 230 model to the iX Cameras brand of high-speed cameras. The i-SPEED 230 provides our customers a budget-friendly camera package with many options to suit multiple applications. The introduction of the i-SPEED 230 follows the recent addition of the i-SPEED 5 Series, allowing our customers to choose from a wide range of models from ultra-high-speed cameras to compact cameras depending on their requirements.”

#### **Key Features**

- 2,500 fps at 1280 x 864 full resolution
